

## 2009 New Brunswick BioSciences Achievement Award

- The *New Brunswick BioSciences Achievement Award* celebrates outstanding contributions to the local and/or global scientific community and/or socio-economic improvements through bio-science, by a New Brunswick bio-scientist. As well, the evaluation criteria account for the candidate's collegiality and leadership. For 2009, A panel of six esteemed judges from New Brunswick's bio-science community has evaluated ten exceptional candidates from the areas of bio-medical, marine, and environmental sciences for the Bio-Sciences Achievement Award.
